

Soul BYRD

Dynamic In-Ear Headphones

Order # 717.800

FEATURES

- Closed design
- Ideal for mobile use
- Cable with remote control with microphone and three buttons for phone calls and media control, with 4-pole mini stereo jack plug (3.5 mm), length 1.20 m
- Supplied with five pairs of silicone eartips in various sizes and hard case

DESCRIPTION

The dynamic Soul BYRD in-ear headphones provide a balanced sound and excellent bass response.

They are suitable to connect to all portable devices with a mini jack socket (3.5 mm) such as notebooks, tablets, computers or smartphones. The closed design prevents music from penetrating to the outside and ambient noise from penetrating to the inside.

Via the 3-button remote control integrated in the cable, the volume* and media playback of the player and telephone calls can be controlled.

The supplied cable clip and slider allow the cable to be attached to clothing and reduce noise transmitted through the cable.

The ergonomic design and the supplied selection of five pairs of silicone eartips in various sizes ensure a comfortable and secure fit in the ear.

When not in use, the in-ear headphones can be stored in the supplied high-quality hard case.
